

IPCO GLUFOSINATE 150

SAFETY DATA SHEET

1: CHEMICAL PRODUCT AND COMPANY IDENTIFICATION

Product Name: IPCO Glufosinate 150 Herbicide
Pest Control Product Number: 35053
Product Use: Agrochemicals/Herbicide
Manufacturer /Supplier: INTERPROVINCIAL COOPERATIVE LTD.
945 Marion St.
Winnipeg, Manitoba
R2J 0K7
www.ipco.ca
Effective Date: January 12, 2024
This product is regulated under authority of the Pest Control Products Act

2: HAZARD IDENTIFICATION

Physical Hazard: GHS classification in accordance with 29 CFR 1910.1200
Not classified
Health Hazards:
Skin corrosion/irritation: Category 2
Serious eye damage/eye irritation: Category 1
Specific target organ toxicity following repeated exposure: Category 2
Environmental Hazards: Not classified

Pictograms:

Signal word: Warning
Hazard statements: May cause damage to organs through prolonged or repeated exposure.
Precautionary statement: Prevention:
Do not breathe mist or vapour.
Response:
Get medical attention if you feel unwell.
Storage:
Store away from incompatible materials.
Disposal:
Dispose of container in accordance with local, regional, national and international regulations.
Other hazards: None known.
Supplemental information: Exempt - Registered product - (PEST CONTROL PRODUCTS ACT: REGISTRATION NO. 35053).

3: COMPOSITION AND INFORMATION ON INGREDIENTS

COMPONENT	CAS NUMBER	g/L
Glufosinat Ammonium (iso); Ammonium-2-amino-4-(hydroxymethylphosphinyl)butyrate	77182-82-2	150
Other Ingredients	Trade Secret	Trade Secret

4: FIRST AID MEASURES

Inhalation:	If inhaled, move a person to fresh air. If a person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.
Skin Contact:	If on skin or clothing, take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control center or doctor for treatment advice.
Eye Contact:	If in eyes, hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.
Ingestion:	If swallowed: Call a poison control center or doctor immediately for treatment advice. Have a person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.
Most important symptoms/effects, acute and delayed. Indication of immediate medical attention and special treatment needed	Prolonged exposure may cause chronic effects. Symptoms may be delayed. Treat patient symptomatically. If this product is ingested, endotracheal intubation and gastric lavage should be performed as soon as possible, followed by charcoal and sodium sulfate administration.
General Advice:	Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention. If you feel unwell, seek medical advice (show the label where possible). Show this safety data sheet to the doctor in attendance. Avoid contact with eyes and skin. Keep out of reach of children.

5: FIRE-FIGHTING MEASURES

Suitable extinguishing media:	Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).
Unsuitable extinguishing media:	Do not use water jet as an extinguisher, as this will spread the fire.
Specific hazards arising from the chemical:	During fire, gases hazardous to health may be formed.
Hazardous combustion products:	May include and are not limited to: Oxides of carbon. Oxides of nitrogen. Oxides of Sulphur.
Special protective equipment and precautions for firefighters:	Self-contained breathing apparatus and full protective clothing must be worn in case of fire.
Fire-fighting equipment/instructions:	Move containers from the fire area if you can do so without risk.
Specific methods:	Use standard firefighting procedures and consider the hazards of other involved materials.
General Fire Hazards:	No unusual fire or explosion hazards noted.
Flammable properties:	None known.

6: ACCIDENTAL RELEASE MEASURES

Personal precautions:	Keep unnecessary personnel away. Keep people away from upwind spill/leak. Wear appropriate protective equipment and clothing during clean-up. Do not breathe mist or vapour. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.
Methods and materials for containment and cleaning up:	Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water. Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination. Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.
Environmental precautions:	Avoid discharge into drains, water courses or onto the ground. Do not discharge into lakes, streams, ponds or public waters.

7: HANDLING AND STORAGE

Precautions for safe handling:	NOTICE TO USER: This pest control product is to be used only in accordance with the directions on the label. It is an offence under the Pest Control Products Act to use this product in a way that is inconsistent with the directions on the label. Avoid contact with eyes, skin and clothing. Avoid breathing vapours or mists. Do not taste or swallow. Use good industrial hygiene practices in handling this material. Provide adequate ventilation. Wear appropriate personal protective equipment. When using do not eat or drink. Wash thoroughly after handling.
Conditions for safe storage, including any incompatibilities:	Keep out of reach of children. DO NOT store product below freezing. If stored for 1 year or longer, shake well before using. Store the tightly closed container away from feeds, seeds, fertilizers, plants and foodstuffs. Do not use or store in or around the home. Keep in original container during storage. To prevent contamination, store this product away from food or feed.

8: EXPOSURE CONTROLS AND PERSONAL PROTECTION

Occupational exposure limits:	No exposure limits noted for ingredient(s).
Biological limit values:	No biological exposure limits noted for the ingredient(s).
Appropriate engineering controls:	Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Ensure adequate ventilation.
Individual protection measures, such as personal protective equipment:	
Eye/Face protection:	Wear safety glasses with side shields.
Skin protection:	Wear appropriate chemical resistant gloves. Wear appropriate chemical resistant clothing. Use of an impervious apron is recommended.
Respiratory protection:	Where exposure guideline levels may be exceeded, use an approved NIOSH respirator. Respirator should be selected by and used under the direction of a trained health and safety professional following requirements found in OSHA's respirator standard (29

CFR 1910.134), CAN/CSA-Z94.4 and ANSI's standard for respiratory protection (Z88.2).

Thermal Hazards: Not applicable.

General Hygiene Considerations: Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. When using do not eat or drink.

9: PHYSICAL AND CHEMICAL PROPERTIES

Appearance/Form: Stable homogeneous blue liquid

Color: Blue

Odor: Slightly pungent odour

Odor threshold: Not available

pH: 7.3 (25 °C)

Melting point: Not applicable

Freezing point: Not applicable

Boiling point: Not available

Flash point: Not available

Evaporation rate: Not available

Flammability (solid, gas): Not applicable

Flammability Limit in Air

Upper flammability limit: Not available

Lower flammability limit: Not available

Explosive limit - lower (%) Not available

Explosive limit – upper (%) Not available

Vapour pressure: Not available

Vapour density: Not available

Relative Density: Not available

Solubility (water): Not available

Partition coefficient(n-octanol/water): Not available

Auto ignition temperature: Not available

Decomposition temperature: Not available

Viscosity: Not available

Explosive properties: Not explosive

Oxidizing properties: Not oxidizing

10: STABILITY AND REACTIVITY

Reactivity: The product is stable and non-reactive under normal conditions of use, storage and transport.

Chemical Stability: Material is stable under normal conditions.

Possibility of hazardous reactions: No dangerous reaction known under conditions of normal use.

Conditions to avoid: Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. Do not mix with other chemicals.

Incompatible Materials: Strong oxidizing agents. Acids. Bases.

In case of emergency call CANUTEC at 613-996-6666

Interprovincial Cooperative Ltd.; Information Phone: 204-233-3461

Effective Date: January 12,2024

Hazardous decomposition products:

May include and are not limited to: Oxides of carbon. Oxides of nitrogen. Oxides of sulphur. Oxides of phosphorus. Ammonia.

11: TOXICOLOGICAL INFORMATION

Likely Routes of Exposure:	Inhalation: Prolonged inhalation may be harmful. Skin contact: Prolonged or repeated contact may dry skin and cause irritation. Eye contact: Direct contact with eyes may cause temporary irritation. Ingestion: May cause stomach distress, nausea or vomiting.
Symptoms related to the physical, chemical and toxicological characteristics:	Direct contact with eyes may cause temporary irritation.
Information on toxicological effects:	
Acute Toxicity:	Not known. Skin corrosion/irritation: Prolonged skin contact may cause temporary irritation. Exposure minutes: Not available. Erythema value: Not available. Oedema value: Not available. Serious eye damage/eye irritation: Direct contact with eyes may cause temporary irritation. Corneal opacity value: Not available. Iris lesion value: Not available. Conjunctival reddening value: Not available. Conjunctival oedema value: Not available. Recover days: Not available.
Germ cell mutagenicity:	Respiratory sensitization: Not a respiratory sensitizer. Skin sensitization: This product is not expected to cause skin sensitization. No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.
Carcinogenicity:	See below
Reproductive toxicity:	This product is not expected to cause reproductive or developmental effects.
Specific target organ toxicity - single exposure:	Not classified
Specific target organ toxicity - repeated exposure:	May cause damage to organs through prolonged or repeated exposure.
Aspiration hazard:	Not an aspiration hazard
Chronic effects:	May cause damage to organs through prolonged or repeated exposure.
Further information:	Not available

12: ECOLOGICAL INFORMATION

Ecotoxicity:	See below
Persistence and degradability:	No data is available on the degradability of any ingredients in the mixture.
Bio accumulative potential:	
Mobility in soil:	Not available
Mobility in general:	Not available

Page 5 of 7

Other adverse effects:

No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

13: DISPOSAL CONSIDERATIONS

Container Disposal:	Handling and	RECYCLABLE CONTAINER DISPOSAL (less than 23 litres): Do not reuse this container for any purpose. This is a recyclable container, and is to be disposed of at a container collection site. Contact your local distributor/dealer or municipality for the location of the nearest collection site. Before taking the container to the collection site: Triple- or pressure-rinse the empty container. Add the rinsings to the spray mixture in the tank. Make the empty, rinsed container unsuitable for further use. If there is no container collection site in your area, dispose of the container in accordance with provincial requirements. RETURNABLE CONTAINER DISPOSAL: Do not reuse this container for any purpose. For disposal, this empty container may be returned to the point of purchase (distributor/dealer). REFILLABLE CONTAINER DISPOSAL: For disposal, this empty container may be returned to the point of purchase (distributor/dealer). It must be refilled by the distributor/dealer with the same product. Do not reuse this container for any other purpose. DISPOSAL OF UNUSED, UNWANTED PRODUCT: For information on disposal of unused, unwanted product, contact the manufacturer or the provincial regulatory agency. Contact the manufacturer and the provincial regulatory agency in case of a spill, and for cleanup of spills. DISPOSAL OF UNUSED SPRAY SOLUTION: If any spray solution remains in the tank after spraying is finished, it should be sprayed on the perimeter of the area just sprayed, away from water supplies, ditches, and irrigation canals.
Local disposal regulations:		Dispose in accordance with all applicable regulations.
Hazardous waste code:		The waste code should be assigned in discussion between the user, the producer and the waste disposal company.
Waste from residues / unused products:		Dispose of it in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see Disposal instructions).
Contaminated packaging:		Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.

14: TRANSPORT INFORMATION

General:	Canada: TDG Proof of Classification: Classification Method: Classified as per Part 2, Sections 2.1 – 2.8 of the Transportation of Dangerous Goods Regulations. If applicable, the technical name and the classification of the product will appear below.
TDG-Canada:	Not regulated as dangerous goods.

15: REGULATORY INFORMATION

Pest Control Products Act Registration Number:35053

This chemical is a pest control product registered by Health Canada Pest Management Regulatory Agency and is subject to certain labelling requirements under the Pest Control Products Act. These requirements differ from the classification criteria and hazard information required for GHS-consistent safety data sheets. Following is the hazard information required on the pest control product label:
